

## secondary clocks

# SLIM

The SLIM series appeal to those who do not see a clock as just a necessity of everyday life. Nowadays people want a clock that also has an eye appeal. The SLIM secondary clocks are extra flat and discreetly elegant. The slender clock

rim that is available in various colours contributes to this impression. The different dials available also reinforce the effect. Don't hesitate - take aesthetic criteria into account, in creating your clock installation.

# SLIM secondary clocks

We can supply the SLIM clocks with various mechanisms:

## A:

With minute pulse movement for conventional minute pulse installations, 24 to 60 V.

## E:

With second pulse movement for conventional second pulse installations. 24 V to 60 V variants available.

## SAM:

With MOBALine movement for operation as self-setting secondary clocks.

## SEM:

With MOBALine movement for operation as self-setting secondary clocks with black hour and minute hands and red second hand (only available for single-sided clocks).

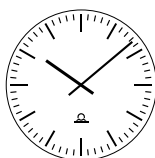

SLIM secondary clocks are available in sizes of 25 cm, 30 cm and 40 cm diameter and with five different dial variants (SEM only two).

The standard colour of the case is white. Other colours available without any price supplement are :

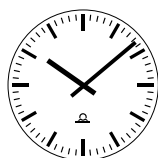

- grey (RAL 7015)
- anthracite (RAL 7016)
- silver grey (RAL 9006)
- blue (RAL 5002)
- red (RAL 3002).

Other colours at extra cost.

As accessories, wall mounting and ceiling mounting kits are available. With the wall mounting kit, two SLIM clocks can be mounted to form a double sided clock. The flange fitting enables them to be fixed to the wall. With the ceiling mounting kit, two SLIM clocks can be mounted to form a double sided clock. They may be fixed to the ceiling by means of the suspension (up to 100 cm or up to 50 cm long - may be shortened by customers).
